

ZEROFLUSH URINAL ROUTINE MAINTENANCE INSTRUCTIONS

Before commencing maintenance of a urinal;

- Always wear rubber gloves
- Be aware of MSDS sheets for chemical agent

Routine Maintenance

After approximately 15000 uses, simple routine maintenance of the urinal should be performed. Maintenance consists of replacing the drain insert and giving the system a quick rinse with water. Here's how it's done;

- 1- **Screw the key** provided into the key hole of the drain insert
- 2- **Pull Upward** on the insert to remove it
- 3- **Rinse the housing** with water
- 4- **Install the replacement insert**, pressing down until you feel a tight fit
- 5- **Add 1 Litre** of water
- 6- **Pour in Entire Contents** of 385ml Odour Barrier bottle
